

Online Safety Overview

Our online safety overview aims to cover a wide variety of areas around online safety. We understand that the technological world changes rapidly and therefore our overview will also, at times, need to change in accordance to changes, current topics of interest and concerns of parents.

Computing curriculum	Within our computing curriculum there will be one of six lesson as a minimum with a sole focus on on an area of online safety. As well as this, every computing lesson will start with an online safety starter which will be a short retrieval like activity to support working memory.
PSHE Curriculum	Some of the PSHE curriculum areas focus on specific online line safety aspect. Whilst others may include online safety as part of that unit. See PSHE overview for more detail on each unit and booklet for specific lesson content.
Assemblies	There will be one year group assembly per half-term that focuses on an area of online safety.
Parent communication	Online safety information will be on each newsletter. There will be an additional safeguarding newsletter with online safety details. Communication with parents will be sent out over Class Dojo and there will be an element of reactivity to current topics of interest. Links, video and website will be included.
Home learning opportunities	One home learning activity to be sent out each half term. These will be designed to create discussion with parents or careers.
Whole school	As a minimum we will have a whole school online safety day during the nationwide 'Safer Internet Day'.
Display	The online safety display will be kept up to date with work currently benign done by children across the school as well as information that supports online safety and current topics and trends that are arising.

Online Safety Overview Y3/4 (22-23)
